EXPERIENCE

MOUNTAIN HELICOPTERS NEPAL PVT. LTD. | JUNIOR FULL-STACK DEVELOPER

July 2026 - Present | Pepsicola, Kathmandu

- Building internal tools and client web apps with Next.js, NestJS and PostgreSQL.
- Leading the role-based booking system from database design to deployment.
- Improving practical skills in Devops, Fullstack, and problem solving.

REWASOFT PVT. LTD. | JUNIOR FRONT END DEVELOPER

11th February 2026 - 27th July 2026 | Lumbini Marg, Kathmandu

- Completed an internship at Rewasoft as a Junior Frontend Developer.
- Gained hands-on experience building responsive web interfaces using ReactJS, NextJS, Tailwind CSS, and modern frontend frameworks and libraries.
- Improved practical skills in visual design, layout creation, and problem solving during this period.

PROJECTS

MOUNTAIN HELICOPTERS NEPAL | FULL-STACK DEVELOPER

Jul 2026 – Sep 2026 | Kathmandu, Nepal

- Developed a multi-page Helicopter Website, which is a Content Management System based website.
- Built with Next.js, Tailwind CSS, Nest.js and MySQL for dynamic and responsive interfaces.
- Implemented search functionality, navigation bar, and mobile-friendly layouts based on Figma designs.

LEGEND ADVENTURE | FULL-STACK DEVELOPER

Jun 2026 – Jul 2026 | Kathmandu, Nepal

- Developed a multi-page Tour website, which is a Content Management System based website.
- Built with Next.js, Tailwind CSS, Nest.js and Mysql for dynamic and responsive interfaces.
- Implemented search functionality, navigation bar, and mobile-friendly layouts based on Figma designs.

BIKRI AI | FULL-STACK DEVELOPER

2026 | Final-year Project

- Built a local-first inventory management system for Nepali retail shops with voice-based stock management and sales insights.
- Integrated Nepali speech recognition, real-time inventory management, sales reporting, and an AI business assistant.
- Implemented semantic product matching, vector search, LLM-based processing, and traditional backend logic for intelligent inventory operations.
